

# The Mothership.

*A custom-built creative workstation for music, film, games, and unnecessary amounts of tinkering.*

---

Built slowly over time through research spirals, late-night upgrades, Black Friday luck, and a probably unhealthy fascination with creative hardware. This machine handles everything from orchestral mockups and mixing sessions to gaming, editing, and experimental nonsense.

<b>CPU</b>	Intel Core Ultra 7 265K
<b>Cooler</b>	Thermalright Peerless Assassin 120SE
<b>Motherboard</b>	ASUS Z890 AYW Gaming WF W
<b>Memory</b>	64GB DDR5-6000 RAM
<b>Primary Drive</b>	Samsung 990 Pro 4TB NVMe SSD
<b>Project Drive</b>	Samsung 9100 Pro Gen 5 2TB NVMe SSD
<b>GPU</b>	ASUS Prime RTX 5070 OC White
<b>Power Supply</b>	Corsair RM750e ATX 3.0
<b>Case</b>	ProArt PA401
<b>Audio Interface</b>	Apogee Symphony Desktop

*“A room full of things that make things.”*
